Dear Bob,

I am writing to recognize and thank you for your critical role in the success of our Project. Building a complex infrastructure project in New York City, like Astoria Energy II, on time and on budget is not easy and it would not have been possible without your valuable contribution.

EJ brought a wealth of knowledge, talent, quality and efficiency to bear in all that you performed. Beyond the hard skills, and appreciated most, is the abundance of integrity and the exceptional work ethic demonstrated by your team. Always transparent and always very fair, EJ partnered with Astoria Energy II and our many contractors from start to finish, and delivered an excellent product.

You should be proud.

Best regards,
